

Complementary action of the ingredients

Present on the European market for more than 7 years, clinical experience has shown that each ingredient contained in Vinceel® stimulates the body's natural tendency towards self-healing and complements each other in their range of indications in order to provide an analgesic effect.

Ingredient	Indication
Apis mellifica D7	<ul style="list-style-type: none"> • Red, swollen gums • Sores on the edges of the tongue • Bright red tongue • Swollen and inflamed throat and tonsils • Laryngitis
